**Letter of Appreciation for CATIA-surface design & GAS training**

We have always found EDS Technologies extremely professional and Proactive to the needs and demands of clients. I thank for efforts made by **Mr.Goutham** in providing training support in CATIA-Surface design and GAS training and helping us understand the tool better and reduce time to deliver the projects.

We would like to assert that over all training was very professional and has met our Expectations.

We look forward for your continued support in our future endeavours also.
