Q-Checker

A management system for Product Data Quality (PDQ), Q-Checker is the world's leading system for quality assurance in virtual development.

QUALITY

EFFICIENCY

COST

EXPERIENCE PACKAGED

The Q-Checker product family covers the complete development process, internally as well as for external suppliers

Q-Checker verifies geometric quality, standards and methodology of CATIA models. Thereby process compatible models are generated which can be reused in new projects or in downstream processes. With more than 2,000 customers globally, Q-Checker is the world's leading system for quality assurance in virtual development.
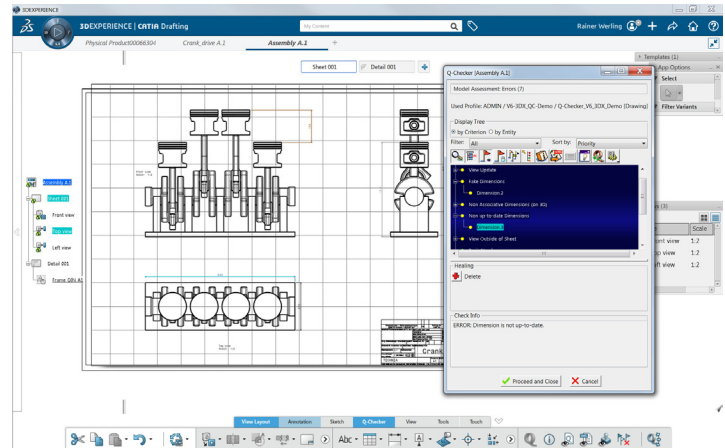

Benefits
- Enforces CATIA standards & methodology
- Promotes design reuse
- Enhances collaboration internally & with suppliers
- Enables 3D Master/Model base definition
- Saves time spent fixing models
- Checks files transferred from other CAD software
- One instance of a model ready for all processes

Control your quality in CATIA V5 and 3DEXPERIENCE

Q-Checker

- Checks CATProduct, CATPart, CATDrawing etc
- Interactive and batch mode
- Automatic healing
- Check profile editor for up to 400 checks
- Ability to create customized checks
- Reports in HTML or XML
- Check seals in and outside of the CATIA file

Q-PLM

Connects and integrates to your PLM environments:
- Improve model data quality and reduce repairs with automated checks during the PDM lifecycle
- Make quality visible in PDM
- Standard components for fast, stable integration
- Low implementation effort

Q-Monitor

Establish a continuous improvement process:
- Measure data quality at significant process points
- Statistics about most frequent errors and quality
- Evaluate departments, partners and processes
- Targeted training

About TECHNIA

At TECHNIA, we pave the way for your innovation, creativity and profitability. We combine industry-leading Product Lifecycle Management (PLM) tools with specialist knowledge, so you can enjoy the journey from product concept to implementation.

Our experience makes it possible to keep things simple, personal and accessible so that together we transform your vision into value.

With over 30 years' experience, more than 6000 customers worldwide and world-class knowledge in PLM & Intelligent Engineering, we work together as true partner and extension of your team to create an exceptional PLM experience.

Our 680 people strong team work from 32 locations around the world, across vertical industries, delivering a premium service with a global infrastructure and a local presence. We adopt the latest technology and agile methodologies so, even as technology changes, our relationships last a lifetime.
